**For Immediate Release**

**BIOHEART, INC. TO PRESENT AT  
AMERICAN ASSOCIATION OF ORTHOPEDIC MEDICINE ON  
CELL THERAPY**

---

**Sunrise, FL – March 21, 2014** – Bioheart, Inc. (BHRT.OB), a biotechnology company focused on the discovery, development and commercialization of autologous cell therapies, announced that it will present at the 31<sup>st</sup> American Association of Orthopedic Medicine Annual Conference (AAOM) Conference and Scientific Seminar. Co-sponsored by the American Board of Quality Assurance and Utilization Review Physicians, Inc. (ABQAURP), the conference, titled “Sports, Spine and Beyond: Latest Advances in Regenerative Orthopedic Medicine,” will focus on the newest breakthroughs in the field of orthopedic medicine.

Kristin Comella, Bioheart’s Chief Scientific Officer, will present a summary of data on the use of stem cells to treat a variety of indications. She will chair the pre-conference session titled “Clinical Applications of Regenerative Medicine.” Other speakers in the session include Joe Purita, MD, Michael Brown, MD and more.

The 31st AAOM Annual Conference and Scientific Seminar will take place April 9-12, 2014 at the Hilton Clearwater Beach Resort in Clearwater, Florida. It will provide both lectures and practical instruction workshops on the diagnosis and treatment of a variety of orthopaedic medicine concerns. There will be anatomical reviews, discussion of research, RIT lectures/workshops, discussion and workshops.

## **About Bioheart, Inc.**

Bioheart, Inc. is dedicated to advancing the field of regenerative medicine by offering the highest quality technology, cellular treatments and training. Specific to biotechnology, Bioheart, Inc. specializes in the discovery, development and commercialization of autologous cellular therapies that treat a wide variety of degenerative diseases.

Bioheart, Inc. is committed to maintaining its leading position within the cardiovascular sector of the cell technology industry by delivering stem cell therapies and biologics that help address congestive heart failure, lower limb ischemia, chronic heart ischemia, acute myocardial infarctions, chronic and acute heart damage, peripheral vascular disease and other issues. Bioheart's goals are to improve a patient's quality of life by regenerating their damaged tissue, when possible, and by reducing health care costs and hospitalizations. Bioheart's leading product, MyoCell, is a clinical muscle-derived cell therapy designed to populate regions of scar tissue within a patient's heart with new living cells for the purpose of improving cardiac function in chronic heart failure patients.
