

Founded in 1999, U.S Stem Cell, Inc. is committed to the development of effective cell technologies to treat a variety of diseases and injuries. By harnessing the body's own healing potential, we may be able to reverse damaged tissue to normal function. We are focused on the discovery, development and commercialization of cell based therapeutics that prevent, treat or cure disease by repairing and replacing damaged or aged tissue, cells and organs and restoring their normal function. We believe that regenerative medicine / cellular therapeutics will play a large role in positively changing the natural history of diseases ultimately, we contend, lessening patient burdens as well as reducing the associated economic impact disease imposes upon modern society.

**Available Position:** Marketing Intern

**Location:** Sunrise, FL

**Job Type:** Part-Time (15-20 hours a week)

**Position Details:** U.S. Stem Cell is currently looking for an intern interested in helping our company grow through different marketing efforts at a local and national level. The person hired will be trained on our science and procedures to ensure quality service and fulfillment of consumer expectations.

**Ideal Candidate:** Preferably, this intern is a quick learner and able to multitask. This person must employ excellent communication skills and must always prioritize the company goals. The ideal candidate does not require micromanagement, instead is able to take an idea and make it reality. This position may entail responsibilities outside of the described job duties, but our intern must willing conquer any task at hand.

**Main Tasks Include:**

- Provide logistics and administrative support for the marketing department
- Gather information to be used for marketing projects and initiatives
- Call and email potential customers about our services
- Assist in various event logistics and planning
- Science background is preferable, but not required
- Photoshop skills is preferable, but not required

**To apply, please e-mail CV to [info@US-Stemcell.com](mailto:info@US-Stemcell.com).**
