**PART I — FINANCIAL INFORMATION**

**Item 1.**

**Interim Condensed Financial Statements and Notes to Interim Financial Statements**

General

The accompanying reviewed condensed interim financial unaudited statements have been prepared in accordance with the instructions to Form 10-Q. Therefore, they do not include all information and footnotes necessary for a complete presentation of financial position, results of operations, cash flows, and stockholders' deficit in conformity with generally accepted accounting principles. Except as disclosed herein, there has been no material change in the information disclosed in the notes to the financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2017. In the opinion of management, all adjustments considered necessary for a fair presentation of the results of operations and financial position have been included and all such adjustments are of a normal recurring nature. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results that can be expected for the year ending December 31, 2018.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

**NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies applied in the presentation of the accompanying unaudited condensed financial statements follows:

General

The accompanying unaudited condensed financial statements of U.S. Stem Cell, Inc. (the “Company”) have been prepared in accordance with the rules and regulations (Regulation S-X) of the Securities and Exchange Commission (the “SEC”) and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results from operations for the three and six month periods ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ended December 31, 2018. The unaudited condensed financial statements should be read in conjunction with the December 31, 2017 audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K.

Basis and business presentation

U.S. Stem Cell, Inc. was incorporated under the laws of the State of Florida in August, 1999. The Company is in the cardiovascular sector of the cell technology industry delivering cell therapies and biologics that help address congestive heart failure, lower limb ischemia, chronic heart ischemia, acute myocardial infarctions and other issues. The primary business includes the development of proprietary cell therapy products as well as revenue generating physician and patient based regenerative medicine/cell therapy training services, revenues realized from an Asset Sale and Lease Agreement related to the segment of the Company business involving collecting, growing and banking cell cultures and treatment kits for humans and animals, and the operation of a cell therapy clinic. To date, the Company has not generated significant sales revenues in that they remain less than their total operating expenses, has incurred expenses, and has sustained losses. Consequently, its operations are subject to all the risks inherent in the establishment of a research and development business enterprise.

Revenue Recognition

Effective January 1, 2018, the Company recognizes revenue in accordance with Accounting Standards Codification 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. The updated guidance states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also provides for additional disclosures with respect to revenues and cash flows arising from contracts with customers. The standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2017, and the Company adopted the standard using the modified retrospective approach effective January 1, 2018.

At the time of each transaction, management assesses whether the fee associated with the transaction is fixed or determinable and whether or not collection is reasonably assured. The assessment of whether the fee is fixed or determinable is based upon the payment terms of the transaction. Collectability is assessed based on a number of factors, including past transaction history with the client and the creditworthiness of the client.

The Company’s primary sources of revenue are from the sale of test kits and equipment, training services, patient treatments, laboratory services and cell banking.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

Revenues for kits and equipment sold are not recorded until kits and equipment are received by the customer. Revenues from in-person trainings are recognized when the training occurs and revenues from on demand online trainings are recognized when the customer purchases the rights to the training course. Any cash received as a deposit for trainings are recorded by the Company as a liability.

Patient treatments and laboratory services revenue are recognized when those services have been completed or satisfied.

Revenues for cell banking sales are accounted for as multiple performance obligations as described in ASC 606 and addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets. Because the Company sells its services separately, on more than a limited basis and at a price within a narrow range, the Company was able to allocate revenue based on stand-alone pricing. The multiple performance obligations include stem cell banking, dose retrieval and yearly storage fees. Revenues for stem cell banking and dose retrieval is recognized at the point of service and revenues for the yearly storage fees is recognized over the term of the banking contract, which is typically one year with annual renewals.

At June 30, 2018 and December 31, 2017, the Company had deferred revenues of \$477,943 and \$279,542, respectively, which includes \$70,000 and \$71,500, respectively, to the Intellectual Property Licensing Agreement.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the fair value of the Company's stock, stock-based compensation, debt discounts and the valuation allowance related to deferred tax assets. Actual results may differ from these estimates.

Accounts Receivable

Trade receivables are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis; thus trade receivables do not bear interest. Trade accounts receivable are periodically evaluated for collectability based on past credit history with customers and their current financial condition.

Allowance for Doubtful Accounts

Any charges to the allowance for doubtful accounts on accounts receivable are charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses. Management determines the adequacy of the allowance based on historical write-off percentages and the current status of accounts receivable. Accounts receivable are charged off against the allowance when collectability is determined to be permanently impaired. As of June 30, 2018 and June 30, 2017, allowance for doubtful accounts was \$7,544 and \$12,298, respectively.

Inventories

Inventories are stated at the lower of cost or market with cost being determined on a first-in, first-out (FIFO) basis. The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required. During the periods presented, there were no inventory write-downs.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

### Investments

The Company follows Accounting Standards Codification subtopic 323-10, Investments-Equity Methods and Joint Ventures (“ASC 323-10”) which requires the accounting for investments where the Company can exert significant influence, but not control of a joint venture or equity investment. The Company accounted for its 33 percent member interest ownerships of U.S. Stem Cell Clinic, LLC and Regenerative Wellness Clinic, LLC respectively and its 49 percent member interest ownership of U.S. Stem Cell Clinic of the Villages utilizing the equity method of accounting (See Note 3).

### Property and Equipment

Property and equipment are stated at cost. When retired or otherwise disposed, the related carrying value and accumulated depreciation are removed from the respective accounts and the net difference less any amount realized from disposition, is reflected in earnings. For financial statement purposes, property and equipment are recorded at cost and depreciated using the straight-line method over their estimated useful lives of 3 to 15 years. Equipment under capital leases are recorded at the estimated present value of the minimum lease payments. Equipment under capital leases are amortized over the term of the lease, which is three years.

### Stock Based Compensation

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Stock-based compensation expense is recorded by the Company in the same expense classifications in the statements of operations, as if such amounts were paid in cash.

### Net Loss per Common Share, basic and diluted

The Company computes earnings (loss) per share under Accounting Standards Codification subtopic 260-10, Earnings Per Share (“ASC 260-10”). Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share, if presented, would include the dilution that would occur upon the exercise or conversion of all potentially dilutive securities into common stock using the “treasury stock” and/or “if converted” methods as applicable.

The computation of basic and diluted income (loss) per share as of June 30, 2018 and 2017 excludes potentially dilutive securities when their inclusion would be anti-dilutive, or if their exercise prices were greater than the average market price of the common stock during the period.

Potentially dilutive securities excluded from the computation of basic and diluted net loss per share are as follows:

	<b>June 30, 2018</b>	<b>June 30, 2017</b>
Options to purchase common stock	101,630,693	39,755,770
Warrants to purchase common stock	118,019	136,731
Totals	101,748,712	39,892,501

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

Concentrations of Credit Risk

The Company's financial instruments that are exposed to a concentration of credit risk are cash and accounts receivable. Generally, the Company's cash and cash equivalents in interest-bearing accounts does not exceed FDIC insurance limits. The financial stability of these institutions is periodically reviewed by senior management.

As of June 30, 2018, three customers represented 35%, 25% and 11%, respectively, representing an aggregate of 71% of the Company's accounts receivable. As of December 31, 2017, three customers represented 27%, 15% and 13% respectively, representing an aggregate of 55% of the Company's accounts receivable.

For the three months ended June 30, 2018, the Company's revenues earned from sale of products and services were \$1,820,429, of which three customers represented 10%, 8% and 6%, respectively, one of which is a related party (US Stem Cell Clinic LLC, a partly owned investment in with the Company holds a 33% interest) represented 10% of Company's revenue. For the three months ended June 30, 2017, the Company's revenues earned from the sale of products and services were \$1,385,911, of which three customers represented 6%, 10% and 14%, respectively, one of which is a related party (US Stem Cell Clinic LLC) represented 6% of Company's revenue.

For the six months ended June 30, 2018, the Company's revenues earned from sale of products and services were \$3,533,358, of which two customers represented 10% and 7% respectively, of Company's revenue, one of which is a related party (US Stem Cell Clinic LLC, a partly owned investment in with the Company holds a 33% interest) represented 10%. For the six months ended June 30, 2017, the Company's revenues earned from the sale of products and services were \$2,540,897, of which three customers represented 5%, 11% and 11% respectively, of Company's revenue, one of which is a related party (US Stem Cell Clinic LLC), represented 11% of the Company's revenues.

Research and Development

The Company accounts for research and development costs in accordance with Accounting Standards Codification subtopic 730-10, Research and Development ("ASC 730-10"). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and development costs are expensed when the contracted work has been performed or as milestone results have been achieved as defined under the applicable agreement. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. The Company incurred research and development expenses of \$2,591 and \$3,928 for the three and six months ended June 30, 2018, respectively; and \$7,408 and \$8,489 for the three and six months ended June 30, 2017, respectively.

Fair Value

Accounting Standards Codification subtopic 825-10, Financial Instruments ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying value of cash and cash equivalents, accounts payable and accrued liabilities, and short-term borrowings, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments. All other significant financial assets, financial liabilities and equity instruments of the Company are either recognized or disclosed in the financial statements together with other information relevant for making a reasonable assessment of future cash flows, interest rate risk and credit risk. Where practicable the fair values of financial assets and financial liabilities have been determined and disclosed; otherwise only available information pertinent to fair value has been disclosed.

The Company follows Accounting Standards Codification subtopic 820-10, Fair Value Measurements and Disclosures ("ASC 820-10") and Accounting Standards Codification subtopic 825-10, Financial Instruments ("ASC 825-10"), which permits entities to choose to measure many financial instruments and certain other items at fair value.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

Long Term Deposits

Long term deposits are comprised of the following:

On March 3, 2017, the Company entered into a customer purchase agreement with General American Capital Partners (GACP), whereby the Company agreed to sell, for \$50,000, the first 5,000 customers of the cell banking business after the effective date of the equipment sale/leaseback agreement with rights to purchase additional customers at a price of \$20 per customer. There is no reduction in the selling price should the new customers be fewer than 5,000. The effective date of the sale is upon the expiry or early termination of the related equipment lease transaction (See Notes 4 and 6).

On March 3, 2017, the Company entered into an asset purchase agreement of intellectual property with GACP whereby the Company agreed to sell all of the Company's worldwide rights, title or interest in certain intellectual and other property (as defined) associated with the cell banking business for \$50,000. The effective date of the sale is upon the expiry or early termination of the related equipment lease transaction (See Notes 4, 6, and 7).

Income Taxes

The Company follows Accounting Standards Codification subtopic 740-10, Income Taxes ("ASC 740-10") for recording the provision for income taxes. Deferred tax assets and liabilities are computed based upon the difference between the financial statement and income tax basis of assets and liabilities using the enacted marginal tax rate applicable when the related asset or liability is expected to be realized or settled. Deferred income tax expenses or benefits are based on the changes in the asset or liability during each period. If available evidence suggests that it is more likely than not that some portion or all of the deferred tax assets will not be realized, a valuation allowance is required to reduce the deferred tax assets to the amount that is more likely than not to be realized. Future changes in such valuation allowance are included in the provision for deferred income taxes in the period of change. Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods.

Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse and are considered immaterial.

Recent Accounting Pronouncements

There are various other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

Subsequent Events

The Company evaluates events that have occurred after the balance sheet date but before the financial statements are issued. Based upon the evaluation, the Company did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the condensed consolidated financial statements, except as disclosed.

**U.S. STEM CELL, INC.**

**JUNE 30, 2018**  
*(unaudited)*

**NOTE 2 – GOING CONCERN AND MANAGEMENT’S LIQUIDITY PLANS**

The accompanying condensed financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements during six months ended June 30, 2018, the Company incurred net losses of \$1,383,693 and has a working capital deficit (current liabilities in excess of current assets) of \$5,394,386. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company’s primary source of operating funds in 2017 and 2018 has been from revenue generated from sales and cash proceeds from the sale of common stock and the issuance of convertible and other debt. The Company has experienced net losses and negative cash flows from operations since inception, but expects these conditions to improve in 2018 and beyond as it develops its business model. The Company has stockholders’ deficiencies at June 30, 2018 and requires additional financing to fund future operations.

The Company’s existence is dependent upon management’s ability to develop profitable operations and to obtain additional funding sources. There can be no assurance that the Company’s financing efforts or revenues realized from the Asset Sale and Lease Agreement will result in profitable operations or the resolution of the Company’s liquidity problems. The accompanying statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

**NOTE 3 — INVESTMENTS**

U.S. Stem Cell Clinic, LLC

The investment in U.S. Stem Cell Clinic, LLC is comprised of a 33% member interest ownership and is accounted for using the equity method of accounting. The Company’s 33% income earned by U.S. Stem Cell Clinic, LLC member interests was \$3,143 and \$88,790 for the three and six months ended June 30, 2018, respectively; and \$79,642 and \$139,009 for the three and six months ended June 30, 2017, respectively (inception to date income of \$464,002) which was recorded as other income/expense in the Company’s Statement of Operations in the appropriate periods. In addition, during the six months ended June 30, 2018 and 2017, Company received distributions totaling \$99,000 and \$140,000 from U.S. Stem Cell Clinic, LLC, respectively (inception to date of \$499,000). The carrying value of the investment at June 30, 2018 and December 31, 2017 is \$24,716 and \$34,926, respectively.

At June 30, 2018 and December 31, 2017, accounts receivable for sales of product and services to U.S. Stem Cell Clinic, LLC was \$30,975 and \$8,449 respectively; revenues earned from sales to U.S. Stem Clinic, LLC for the three and six months ended June 30, 2018 were \$178,399 and \$346,047, respectively; and for the three and six months ended June 30, 2017 were \$137,432 and \$285,565, respectively.

An affiliate of one of the Company’s officers is a minority investor in the U.S. Stem Cell Clinic, LLC.

Regenerative Wellness Clinic, LLC

The investment in Regenerative Wellness Clinic, LLC is comprised of a 33% member interest ownership and is accounted for using the equity method of accounting. The Company has provided technical expertise, but no cash investment with Regenerative Wellness Clinic, LLC’s startup in 2017. The Company’s 33% loss incurred by Regenerative Wellness Clinic, LLC member interests was \$(12,765) for year ended December 31, 2017. However the recorded other income/expense in the Company’s Statement of Operations was limited to \$0.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

The carrying value was \$0 at December 31, 2017. For the three and six months ended June 30, 2018, the Company's 33% income earned by Regenerative Wellness Clinic, LLC member interests was \$4,621 and \$14,316 reported, after effects of 2017 loss, of \$9,695. In addition, during the six months ended June 30, 2018, Company received distributions totaling \$10,000 from Regenerative Wellness Clinic, LLC. The carrying value of the investment at June 30, 2018 and December 31, 2017 is \$4,316 and \$0, respectively.

At June 30, 2018 and December 31, 2017, accounts receivable for sales of products and services to Regenerative Wellness Clinic, LLC was \$2,345 and \$15,115, respectively; revenues earned from sales to Regenerative Wellness Clinic, LLC for the three and six months ended June 30, 2018 was \$44,990 and \$84,524, respectively, and \$0 for the three and six months ended June 30, 2017.

An affiliate of one of the Company's officers is an investor in the Regenerative Wellness Clinic, LLC.

U.S. Stem Cell of the Villages LLC

On January 30, 2018, Greg Knutson, a director of the Company ("Knutson") and the Company agreed to open and operate a regenerative medicine/cell therapy clinic providing cellular treatments for patients afflicted with neurological, autoimmune, orthopedic and degenerative diseases in Florida. To that end, U.S. Stem Cell Clinic of The Villages LLC (the "LLC") was formed January 30, 2018. Knutson provided the Company with the sum of Three Hundred Thousand Dollars (\$300,000) (the "Investment") to be utilized for the formation and initial operation of the LLC. Currently, Knutson holds a 51% Member Interest in the LLC and the Company holds a 49% Member Interest. The Company will provide operating assistance as well as management services, the latter to be compensated at fee of five percent (5%) of the net revenues.

As of June 30, 2018, upon completion of U.S. Stem Cell of the Villages LLC, the Company was credited with investment equity of \$103,159 from Greg Knutson, the 51% member. The Company then recorded the investment equity as contributed capital of the Company. The Company's 49% loss incurred by U.S. Stem Cell of the Villages LLC member interests was \$(27,771) for three and six months ended June 30, 2018. However the recorded other income/expense in the Company's Statement of Operations was limited to \$0. The carrying value was \$0 at June 30, 2018.

At June 30, 2018, accounts receivable for sales of products and services to U.S Stem Cell of the Villages LLC was \$9,626; revenues earned from sales to U.S Stem Cell of the Villages LLC for the three and six months ended June 30, 2018 was \$56,891 and \$79,476, respectively.

**NOTE 4—PROPERTY AND EQUIPMENT**

Property and equipment are recorded on the basis of cost. For financial statement purposes, property, plant and equipment are depreciated using the straight-line method over their estimated useful lives.

Expenditures for repair and maintenance which do not materially extend the useful lives of property and equipment are charged to operations. When property or equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the respective accounts with the resulting gain or loss reflected in operations. Management periodically reviews the carrying value of its property and equipment for impairment in accordance with the guidance for impairment of long lived assets.

Property and equipment as of June 30, 2018 and December 31, 2017 is summarized as follows:

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

	<b>June 30, 2018</b>	<b>December 31, 2017</b>
Laboratory and medical equipment	\$ 5,590	\$ 5,590
Furniture, fixtures and equipment	125,633	125,633
Computer equipment	49,951	49,951
Equipment under capital lease	624,602	624,602
Leasehold improvements	362,046	362,046
	<u>1,167,822</u>	<u>1,167,822</u>
Less accumulated depreciation and amortization	(821,903)	(718,075)
	<u>\$ 345,919</u>	<u>\$ 449,747</u>

On March 3, 2017, the Company entered into an asset sale and lease agreement (sale/leaseback transaction, the “Asset Sale and Lease Agreement”) with GACP, whereby the Company sold certain lab, medical and other equipment relating to the cell banking business for \$400,000 and leased back the sold equipment over a three year term.

The Company determined that the transaction was a capitalized lease and accordingly recorded the leased assets and liability based on the estimated present value of the minimum lease payments.

Included in net property are assets under capital leases of \$624,602, less accumulated depreciation of \$275,478 as of June 30, 2018 and \$624,602, less accumulated depreciation of \$174,120 December 31, 2017, respectively.

In connection with the sale of the lab, medical and other equipment, the Company realized a gain on sale of equipment of \$386,535. The gain is recognized ratably over the term of the lease to operations. During the three and six months ended June 30, 2018, the Company recognized \$32,212 and \$64,423; and \$32,211 and \$42,948 for the three and six months ended June 30, 2017, as the gain on sale of equipment, respectively. As of June 30, 2018 and December 31, 2017, deferred gain on sale of equipment was \$214,742 and \$279,165, respectively.

Property and equipment are recorded on the basis of cost. For financial statement purposes, property, plant and equipment are depreciated using the straight-line method over their estimated useful lives.

Depreciation expense was \$51,652 and \$103,828 of which \$51,652 and \$103,304 were included in cost of sales for the three and six months ended June 30, 2018, respectively.

Depreciation expense was \$53,268 and \$72,102 of which \$51,652 and \$68,869 were included in cost of sales for the three and six months ended June 30, 2017, respectively.

#### **NOTE 5 — ACCRUED EXPENSES**

Accrued expenses consisted of the following as of June 30, 2018 and December 31, 2017:

	<b>June 30, 2018</b>	<b>December 31, 2017</b>
Interest and fees payable to the Guarantors of the Company’s loan agreement with Seaside Bank	\$ 290,841	\$ 248,746
Interest payable on notes payable-related party (See Note 7)	439,715	381,667
Vendor accruals and other	146,591	146,421
Marketing obligation	213,464	141,560
Employee commissions, compensation, etc.	-	10,725
	<u>\$ 1,090,611</u>	<u>\$ 929,119</u>

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

During the six months ended June 30, 2018, the Company issued an aggregate of 7,059,562 shares of its common stock in settlement of outstanding accounts payable and accrued expenses. In connection with the issuance, the Company incurred a \$35,236 net loss in settlement of debt.

**NOTE 6 — NOTES AND CAPITAL LEASE PAYABLE**

Notes and capital lease payable were comprised of the following as of June 30, 2018 and December 31, 2017:

	<b>June 30, 2018</b>	<b>December 31, 2017</b>
Seaside Bank note payable.	\$ 980,000	\$ 980,000
Hunton & Williams note(s) payable	514,000	584,000
Power Up Lending Group notes payable	159,525	94,448
Lab and medical equipment capitalized leases	369,011	468,465
Total notes payable	2,022,536	2,126,913
Less unamortized debt discount	(89,298)	(94,866)
Total notes payable net of unamortized debt discount	1,933,238	2,032,047
Less current portion	(1,416,971)	(1,344,594)
Long term portion	\$ 516,267	\$ 687,453

***Seaside Bank***

On October 25, 2010, the Company entered into a Loan Agreement with Seaside National Bank and Trust for a \$980,000 loan at 4.25% per annum interest that was used to refinance the Company's loan with Bank of America. The obligation is guaranteed by certain shareholders of the Company. The Company renewed the loan with Seaside National Bank and Trust during the first quarter of 2018 to extend the maturity date to May 18, 2020.

***Hunton & Williams Notes***

At December 31, 2016, the Company has two outstanding notes payable with interest at 8% per annum due at maturity. The two notes, \$61,150 and \$323,822, are payable in one balloon payment upon the date the Noteholder provides written demand, however the Company is not obligated to make payments until the Northstar (or successor) Loan is paid off.

On August 31, 2017, the Company and the note holder entered into a Note Forbearance, Modification and Repayment Agreement ("Agreement"). The two notes, \$61,150 and \$323,822, were payable in one balloon payment upon the date of a written demand and upon certain triggering events occurring. The total of unpaid principal and accumulated interest for both notes as of August 31, 2017 was \$747,680 and an accounts payable of \$40,596, for an aggregate total of \$788,276.

The note holder agreed to accept full payment of their obligation of over a four (4) year period in 48 monthly installments on an adjusted debt obligation in aggregate of \$624,000 (reducing the outstanding balance), with such payments staggered in amounts such that the Company will pay \$10,000 monthly the first year, \$12,000 monthly the second year, \$14,000 monthly the third year, and \$16,000 monthly the final year. In addition, the note holder agreed to suspend accrual interest on the notes commencing September 1, 2017.

The Agreement remains in full force and effect provided the Company continues to make the monthly payments, there is no event of default as defined in the notes and an agreement to a subordination agreement by Northstar Biotech Group, LLC, which has been provided.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

The Company imputed an interest rate of 5% and discounted the note accordingly. The imputed debt discount of \$69,700 is amortized to interest expense using the effective interest method. For three and six months ended June 30, 2018, the Company amortized \$9,007 and \$16,083 of debt discounts to current period operations as interest expense. The unamortized debt discount at June 30, 2018 is \$43,441.

***PowerUp Lending Group, Ltd***

On September 12, 2017, the Company entered into a revenue based factoring agreement and received an aggregate of \$137,200 (less origination fees of \$2,800) in exchange for \$187,600 of future receipts relating to monies collected from customers or other third party payors. Under the terms of the factoring agreement, the Company is required to make daily payments equal to \$1,276 for 147 business days. The Company received net proceeds of \$103,085 along with cancellation of the previous revenue based factoring agreement issued in February 2017. In connection with the cancellation of the February 2017 revenue based factoring agreement, the Company incurred a gain in settlement of debt of \$2,734 in 2017.

On January 2, 2018, the Company entered into a revenue based factoring agreement and received an aggregate of \$137,200 (less origination fees of \$2,800) in exchange for \$187,600 of future receipts relating to monies collected from customers or other third party payors. Under the terms of the factoring agreement, the Company is required to make daily payments equal to \$1,276 for 147 business days. The Company received net proceeds of \$47,907 along with cancellation of the previous revenue based factoring agreement issued in September 2017. In connection with the cancellation of the September 2017 revenue based factoring agreement, the Company incurred a gain in settlement of debt of \$5,154 in 2018.

On May 29, 2018, the Company entered into a revenue based factoring agreement and received an aggregate of \$137,200 (less origination fees of \$2,800) in exchange for \$187,600 of future receipts relating to monies collected from customers or other third party payors. Under the terms of the factoring agreement, the Company is required to make daily payments equal to \$1,276 for 147 business days. The Company received net proceeds of \$78,495 along with cancellation of the previous revenue based factoring agreement issued in January 2018. In connection with the cancellation of the January 2018 revenue based factoring agreement, the Company incurred a loss in settlement of debt of \$5,105 in 2018.

The remaining principle balance of the PowerUp Lending Group promissory note payable at June 30, 2018 is \$159,524, net of unamortized discount of \$45,857.

***Lab and Medical Equipment Capitalized Lease***

On March 3, 2017, the Company entered into an asset sale and lease agreement (sale/leaseback transaction; "Asset Sale and Lease Agreement") with GACP, whereby the Company sold certain lab, medical and other equipment relating to the cell banking business for \$400,000 and leased back the sold equipment over a three year term. The Company recognized the arrangement as a capital lease. The Company initially recorded the equipment and the capitalized lease liability at the estimated present value of the minimum lease payments of \$619,825.

The lease includes a base monthly rental payment of \$20,000, due the first day of each calendar month plus contingent rent equal to 2.3%, 22.5%, and 31.6% of revenues collected on deposits arising from cell banking business for years 1, 2 and 3, respectively. The contingent rent is recognized as a period expense and as interest expense at the time of collection. At the expiration of the lease, the Company is required to return all leased equipment and along with any maintenance records, logs, etc. in the Company's possession to the lessor with no right of repurchase.

The Company determined that the present value of the minimum lease payments exceeded 90% of the estimated fair value of the equipment and therefore classified the equipment sale/lease as a capitalized lease. The effective interest rate of the capitalized lease is estimated at 10.00% based on the Company estimated incremental borrowing rate.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

Present value of minimum lease payments	369,011
Current portion of capital lease obligations	<u>214,166</u>
Capital lease obligation, less current portion	<u>\$ 154,845</u>

***Promissory note***

On June 1, 2015, the Company issued an amended and restated promissory note of \$1,697,762 in settlement of the \$1,500,000 outstanding subordinated debt, related accrued interest of \$373,469 and accumulated and unpaid guarantor fees of \$624,737.

The note is unsecured and non-interest bearing with four semi-annual payments of \$75,000 beginning on December 31, 2015 with the remaining unpaid balance due June 1, 2020.

The Company imputed an interest rate of 5% and discounted the promissory note accordingly. The imputed debt discount of \$368,615 is amortized to interest expense using the effective interest method. For the three and six months ended June 30, 2018, the Company amortized \$17,424 and \$34,657 of debt discounts to current period operations as interest expense, respectively. The unamortized debt discount at June 30, 2018 is \$134,415.

As of June 30, 2018, the remaining principle due was \$1,397,762.

**NOTE 7 — RELATED PARTY TRANSACTIONS**

Advances

As of June 30, 2018 and December 31, 2017, the Company's officers and directors have provided advances in the aggregate of \$204,901 and \$104,901 respectively, for working capital purposes. The advances are unsecured, due on demand, and non-interest bearing.

Notes payable-related party

***Northstar Biotechnology Group, LLC***

On February 29, 2012, a promissory note issued to BlueCrest Master Fund Limited was assigned to Northstar Biotechnology Group, LLC ("Northstar"), owned partly by certain directors and existing shareholders of the Company at the time, including Dr. William P. Murphy Jr., Dr. Samuel Ahn and Charles Hart. At the date of the assignment, the principal amount of the BlueCrest note was \$544,267 the ("Note").

On March 30, 2012, the Company and Northstar agreed to extend until May 1, 2012 the initial payment date for any and all required monthly under the Note, such that the first of the four monthly payments required under the Note will be due and payable on May, 2012 and all subsequent payments will be due on a monthly basis thereafter commencing on June 1, 2012, and to waive any and all defaults and/or events of default under the Note with respect to such payments. The Company did not make the required payment, and as a result, was in default of the revised agreement. The Company renegotiated the terms of the Note and Northstar agreed to suspend the requirement of principal payments by the Company and allow payment of interest-only in common stock.

On September 21, 2012, the Company issued 5,000 common stock purchase warrants to Northstar that was treated as additional interest expense upon issuance.

On October 1, 2012, the Company and Northstar entered into a limited waiver and forbearance agreement providing a recapitalized new note balance comprised of all sums due Northstar with a maturity date extended perpetually. The Company agreed to issue 5,000,000 shares of Series A Convertible Preferred Stock and 10,000 shares of common stock in exchange for \$210,000 as payment towards outstanding debt, default interest, penalties, professional fees outstanding and due Northstar. In addition, the Company executed a security agreement granting Northstar a lien on all patents, patent applications, trademarks, service marks, copyrights and intellectual property rights of any nature, as well as the results of all clinical trials, know-how for preparing Myoblasts, old and new clinical data, existing approved trials, all right and title to Myoblasts, clinical trial protocols and other property rights.

In addition, the Company granted Northstar a perpetual license on products as described for resale, relicensing, and commercialization outside the United States. In connection with the granted license, Northstar shall pay the Company a royalty of up to 8% on revenues generated.

Effective October 1, 2012, the effective interest rate was 12.85% per annum. The parties agreed, as of February 28, 2013, to reduce the interest rate to 7% per annum.

In connection with the consideration paid, Northstar waived, from the effective date through the earlier of termination or expiration of the agreement, satisfaction of the obligations as described in the forbearance agreement.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

In 2012, 5,000,000 shares of Series A Convertible Preferred Stock were approved to be issued, which was subsequently increased to 20,000,000 shares of preferred stock as Series A Convertible Preferred Stock. In addition, the Company was obligated to issue additional preferred stock equal in lieu of payment of cash of accrued and unpaid interest on each six month anniversary of the effective date (October 1, 2012). In lieu of the initial two payments in preferred stock, the parties agreed to modify the voting rights of the subsequently cancelled Series A Convertible Preferred Stock from 20 votes per share on matters to be voted on by the common stock holders to 25 votes per share on matters to be voted on by the common stock holders and all prior and subsequent payments of interest will be in common stock. The Company is required to issue additional shares of its common stock (as amended), in lieu of cash, each six month anniversary of the effective date for any accrued and unpaid interest.

On March 1, 2017, Northstar and the Company entered into a settlement agreement (“Settlement Agreement”) related to pending litigation (See Note 11). Pursuant to the terms and conditions of the Settlement Agreement, Northstar converted its outstanding Series A Convertible preferred stock, into twenty million (20,000,000) shares of common stock according to the original conversion terms. In addition, and separate and apart from the conversion, Northstar received Eleven Million (11,000,000) shares of the Company’s common stock. Northstar will receive ten percent (10%) of all Company international sales (based on a gross sales basis). There was no effect of 10% as there were no international sales in 2017. Furthermore, a Northstar designee, Greg Knutson, was appointed to the Board of Directors of the Company and two Company directors, Michael Tomas and Kristin Comella, will each exercise their prior Northstar options to each receive a Five percent (5%) Member Interest in Northstar. The parties agreed to a mutual release and Northstar agreed to terminate any UCC lien on the Company assets previously filed for the benefit of Northstar. On March 9, 2017 and April 1, 2017, the Company issued 30,000,000 and 1,000,000 shares of its common stock, respectively, as described above. In connection with the settlement, the Company recorded a loss on litigation settlement of \$316,800.

On September 30, 2013, the Company issued 8,772 shares of its common stock as payment of \$100,000 towards cash advances.

On December 24, 2013, the Company issued 3,916 shares of its common stock as payment of accrued interest through June 30, 2013 of \$85,447.

On April 2, 2014, the Company issued 275 shares of its common stock in lieu of payment in cash of accrued and unpaid interest of \$12,635 due April 1, 2014 per the forbearance agreement.

On September 17, 2014, the limited waiver and forbearance agreement entered into on October 1, 2012 to provide that the perpetual license on products as described for resale, relicensing and commercialization outside the United States was amended as such on the condition that Northstar provide certain financing, which financing the Company, in its sole discretion, could decline and retain the license.

On October 3, 2014, the Company issued 515 shares of its common stock in lieu of payment in cash of accrued and unpaid interest of \$12,705 due October 1, 2014 per the forbearance agreement.

On April 3, 2015, the Company issued 1,363 shares of its common stock in lieu of payment in cash of accrued and unpaid interest of \$12,635 due April 1, 2015 per the forbearance agreement.

On October 2, 2015, the Company issued 4,156 shares of its common stock in lieu of payment in cash of accrued and unpaid interest of \$12,705 due October 1, 2015 per the forbearance agreement.

On October 7, 2015, the Company issued 34,522 shares of its common stock in settlement of \$100,000 principal payment towards the outstanding debt.

On April 7, 2016, the Company issued 57,778 shares of its common stock in lieu of payment in cash of accrued and unpaid interest of \$12,705 due April 1, 2016 per the forbearance agreement.

**U.S. STEM CELL, INC.**

***Notes payable, Mr. Tomas***

On July 1, 2014, the Company issued a \$500,000 promissory note in settlement of compensation earned. The promissory note bears interest of 5% per annum and was due on January 1, 2015. During the six months ended June 30, 2018, the Company paid off \$101,729 of the outstanding promissory note. The principal outstanding balance of this note as of June 30, 2018 and December 31, 2017 is \$0 and \$101,729, respectively.

On September 6, 2016, the Company issued a \$500,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and is due upon demand. During the six months ended June 30, 2018, the Company paid off \$274,221 of the outstanding promissory note. The principal outstanding balance of this note as of June 30, 2018 and December 31, 2017 is \$225,779 and \$500,000, respectively.

On August 7, 2017, the Company issued a \$500,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and is due one year from date of issuance. The principal outstanding balance of this note as of June 30, 2018 and December 31, 2017 is \$500,000.

On May 7, 2018, the Company issued a \$500,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and is due six months from date of issuance. The principal outstanding balance of this note as of June 30, 2018 is \$500,000.

At June 30, 2018 and December 31, 2017, the Company has recorded accrued interest on the outstanding and past notes to Mr. Tomas in the amount of \$310,152 and \$281,903, respectively, which is included in the accrued expenses on the balance sheet.

**U.S. STEM CELL, INC.**

***Notes payable, Dr. Comella***

On September 6, 2016, the Company issued a \$300,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and was due upon demand. During the six months ended June 30, 2018, the Company paid off \$93,189 of the outstanding promissory note. The principal outstanding balance of this note as of June 30, 2018 and December 31, 2017 is \$144,608 and \$237,797, respectively.

On August 7, 2017, the Company issued a \$300,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and is due one year from date of issuance. The principal outstanding balance of this note as of June 30, 2018 and December 31, 2017 is \$300,000.

On May 7, 2018, the Company issued a \$300,000 promissory note in exchange for compensation earned. The promissory note bears interest of 5% per annum and is due six months from date of issuance. The principal outstanding balance of this note as of June 30, 2018 is \$300,000.

At June 30, 2018 and December 31, 2017, the Company has recorded accrued interest on the outstanding notes to Dr. Comella in the amount of \$84,096 and \$69,108, respectively, which is included in the accrued expenses on the balance sheet.

***Transactions with Pavillion***

On May 1, 2016, the Company entered into a consulting agreement with Pavillion, Inc, whose owner is related to an officer of the Company. The agreement is for 12 months and renewable for 6 month periods. Compensation is at \$250 per hour or, at the Company's discretion, in shares of the Company's common stock. For the three and six months ended June 30, 2018, the Company has incurred \$30,000 and \$60,000 of expense under the agreement, respectively. As of June 30, 2018 and December 31, 2017, the Company had \$134,909 and \$187,409, respectively, in accounts payable owed to Pavillion.

***Transactions with GACP***

On March 3, 2017, the Company entered into an asset sale and lease agreement (sale/leaseback transaction, the "Asset Sale and Lease Agreement") with GACP, whereby the Company sold certain lab, medical and other equipment relating to the cell banking business for \$400,000 and leased back the sold equipment over a three year term (See "*Lab and Medical Equipment Capitalized Lease*" below). The Company determined that the transaction was a capitalized lease and accordingly recorded the leased assets and liability based on the estimated present value of the minimum lease payments (see Notes 4 and 6).

In connection with the asset sale and lease agreement, the Company is obligated to accrue 10% of banking revenue as for marketing, offset by any incurred costs of the Company. At June 30, 2018 and December 31, 2017, the outstanding accrued marketing obligation is \$213,464 and \$141,560, respectively (see Note 5).

On March 3, 2017, the Company also entered into a customer purchase agreement with GACP, whereby the Company agreed to sell, for \$50,000, the first 5,000 customers of the cell banking business after the effective date of the equipment sale/leaseback agreement with rights to purchase additional customers at a price of \$20 per customer. There is no reduction in the selling price should the new customers be fewer than 5,000. The effective date of the sale is upon the expiry or early termination of the related equipment lease transaction.

On March 3, 2017, the Company also entered into an asset purchase agreement of intellectual property with GACP whereby the Company agreed to sell all of the Company's worldwide rights, title or interest in certain intellectual and other property (as defined) associated with the cell banking business for \$50,000. The effective date of the sale is upon the expiry or early termination of the related equipment lease transaction.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

In connection with the March 3, 2017 asset purchase agreement, the CEO and CSO of U.S. Stem Cell, Inc. were also retained as CEO and CSO of American Stem Cell Centers of Excellence, which is owned by General American Capital Partners (GACP), to help with scientific and successful operational deployment of clinics. Subsequently, the CSO of U.S. Stem Cell, Inc. has vacated her position but retained her positions with U.S. Stem Cell, Inc. and subsidiaries.

On April 3, 2017, U.S. Stem Cell received a commitment to invest up to \$5,000,000 from GACP with the intent for GACP to receive up to 63,873,275 shares of common stock. To date, GACP has invested, pursuant to this commitment, \$250,000 in return for 858,281 shares. Subsequent to this investment, GACP has informed the Company that they will make no further investments pursuant to this agreement and has entered into a new agreement to invest \$3,000,000 to open their own clinics (branded American Stem Cell) using the US Stem Cell Inc. protocols, procedures, products and technologies. As of June 30, 2018 (effective May 9, 2018), GACP has suspended their obligation to open additional clinics (tolling such obligation to a mutually agreeable date in the future) and has suspended the monthly aggregate number of stem cell kits set forth for purchase in a given month arising from such clinics. All other terms and conditions of the agreements between U.S. Stem Cell, Inc. and GACP remain in full force and effect. As of June 30, 2018 and December 31, 2017, GACP owns 4,021,945 shares of the Company's common stock.

**NOTE 8— STOCKHOLDERS' EQUITY**

During the six months ended June 30, 2018, the Company issued an aggregate of 7,059,562 shares of its common stock in settlement of outstanding accounts payable and accrued expenses. In connection with the issuance, the Company incurred a \$35,236 net loss in settlement of debt.

During the six months ended June 30, 2018, the Company issued an aggregate of 7,866,274 shares of its common stock for services.

During the six months ended June 30, 2018, the Company issued an aggregate of 9,350,508 shares of its common stock for \$367,700.

***Stock Options***

In December 1999, the Board of Directors and shareholders adopted the 1999 Officers and Employees Stock Option Plan, or the Employee Plan, and the 1999 Directors and Consultants Stock Option Plan, or the Director Plan. The Employee Plan and the Director Plan are collectively referred to herein as the "Plans" The Plans are administered by the Board of Directors and the Compensation Committee. The objectives of the Plans include attracting and retaining key personnel by encouraging stock ownership in the Company by such persons. In February 2010, the Directors & Consultants Plan was amended to extend the termination date of the Plan to December 1, 2011.

On April 1, 2013, the Board of Directors approved, subject to subsequently received shareholder approval, the establishment of the Bioheart 2013 Omnibus Equity Compensation Plan, or the "2013 Omnibus Plan". The 2013 Omnibus Plan initially reserved up to fifty thousand (50,000) shares of common stock for issuance. On August 4, 2014, the Board of Directors approved to set the reserve to one hundred thousand (100,000) shares of common stock for issuance and to close the 1999 Officers and Employees Stock Option Plan. On February 2, 2015, at the annual meeting of shareholders, the majority of shareholders approved the 2013 Omnibus Equity Compensation Plan. On November 2, 2015, the Board of Directors approved the increase of the reserve under the 2013 Omnibus Plan to five hundred million (500,000,000) shares of common stock for issuance, effective September 16, 2016, approved an addition of twenty five million (25,000,000) shares of common stock to the reserve, effective April 21, 2017, approved an addition of twenty five million (25,000,000) shares of common stock to the reserve, effective August 7, 2017, approved an addition of thirty million (30,000,000) shares of common stock to the reserve and effective May 7, 2018, approved an addition of one hundred million (100,000,000) shares of common stock to reserve.

The aggregate intrinsic value of the issued and exercisable warrants of \$-0- represents the total pretax intrinsic value, based on warrants with an exercise price less than the Company's stock price of \$0.0291 as of June 30, 2018, which would have been received by the warrant holders had those warrants holders exercised their warrants as of that date.

**NOTE 9 — COMMITMENTS AND CONTINGENCIES**

**Litigation**

On December 12, 2017, a product liability lawsuit was filed in Broward County, specifically Jeannine Mallard v. U.S. Stem Cell, Inc., US Stem Cell Clinics LLC., Regenestem, LLC., Regenestem Network, LLC., and Kristin C. Comella. The Company believes the lawsuit is without merit and will defend it vigorously.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

On September 17, 2015, a product liability lawsuit was filed in Broward County, specifically Patsy Bade v. Bioheart, Inc. US Stem Cell Clinics LLC, Aleiandro Perez, ARNP, and Shareen Greenbaum, M.D., and on November 30, 2015, a product liability lawsuit was filed in Broward County, specifically Elizabeth Noble v. Bioheart, Inc. US Stem Cell Clinics LLC, Aleiandro Perez, ARNP, and Shareen Greenbaum, M.D. During the year ended December 31, 2016, both matters settled by the Company's insurance policy with no additional cost to the Company, excluding the Company payment of the \$100,000 insurance company deductible of which \$11,000 was paid in fiscal 2017. As a result of the final settlement and determination of insurance coverage, the Company recognized \$100,000 of expense due to litigation for the year ended December 31, 2017, of which \$89,000 is included in accrued expenses at June 30, 2018 and December 31, 2017.

The Company is subject at times to other legal proceedings and claims, which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters should not have a material adverse effect on its financial position, results of operations or liquidity. There was no outstanding litigation as of June 30, 2018 other than described above.

*SEC Investigation*

On or about March 1, 2018, the U.S. Securities and Exchange Commission ("Commission"), Miami Regional Office ("Commission Staff"), served a subpoena upon U.S. Stem Cell, Inc., which seeks the production of certain documents and communications. The Commission Staff is conducting a formal non-public, fact-finding inquiry of U.S. Stem Cell, Inc ("Investigation"). The Investigation is neither an allegation of wrongdoing nor a finding that any violation of law has occurred. The Company is cooperating with, and has provided information and documents to, the Commission Staff.

As part of the Investigation, on or about May 14, 2018, the Commission Staff served subpoenas upon Kristin Comella and Mike Tomas, respectively, seeking the production of certain documents and communications. Ms. Comella and Mr. Tomas responded to the respective subpoenas and provided information and documents to the Commission Staff.

At this juncture, the Company is not able to predict the duration, scope, results, or consequences of the Commission Staff's investigation. There can be no assurance that the Investigation will be resolved in a manner that is not adverse to the Company.

*Government Inquiry*

On May 9, 2018, the U.S. Department of Justice filed an injunctive action, specifically United States of America v. U.S. Stem Clinic, LLC, U.S. Stem Cell, Inc., Kristin C. Comella, and Theodore Gradel. The Complaint was filed at the request of the U.S. Food and Drug Administration (FDA) and alleges that the respective defendants manufacture "stromal vascular fraction" (SVF) products from patient adipose (fat) tissue, which the companies then market as stem cell-based treatments without first obtaining necessary FDA approvals. The Company has retained counsel to defend in this action and continues discussions with the U.S. Department of Justice to achieve a favorable settlement. The Company is not able to predict the duration, scope, results, or consequences of the U.S. Department of Justice discussion or the injunctive actions. There can be no assurance that this matter will be resolved in a manner that is not adverse to the Company.

**U.S. STEM CELL, INC.**  
**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2018**  
*(unaudited)*

**NOTE 10—FAIR VALUE MEASUREMENT**

The Company adopted the provisions of Accounting Standards Codification subtopic 825-10, Financial Instruments (“ASC 825-10”) on January 1, 2008. ASC 825-10 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance. ASC 825-10 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 825-10 establishes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

All items required to be recorded or measured on a recurring basis are based upon level 3 inputs.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined based on the lowest level input that is significant to the fair value measurement.

Upon adoption of ASC 825-10, there was no cumulative effect adjustment to beginning retained earnings and no impact on the financial statements.

The carrying value of the Company’s cash and cash equivalents, accounts receivable, accounts payable, short-term borrowings (including convertible notes payable), and other current assets and liabilities approximate fair value because of their short-term maturity.

As of June 30, 2018 and December 31, 2017, the Company did not have any items that would be classified as level 1, 2 or 3 disclosures.

As of June 30, 2018 and December 31, 2017, the Company did not have any derivative instruments that were designated as hedges.

**NOTE 11—SUBSEQUENT EVENTS**

In July 2018, the Company issued an aggregate of 1,763,412 shares of common stock for services rendered.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

*Unless otherwise indicated, references in this Quarterly Report on Form 10-Q to “we,” “us,” and “our” are to the Company, unless the context requires otherwise. The following discussion and analysis by our management of our financial condition and results of operations should be read in conjunction with our unaudited condensed interim financial statements and the accompanying related notes included in this quarterly report and our audited financial statements and related notes and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission.*

### **Cautionary Statement Regarding Forward-Looking Statements**

This report may contain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act, and we intend that such forward-looking statements be subject to the safe harbors created thereby. These forward-looking statements are based on our management’s beliefs and assumptions and on information currently available to our management. Any such forward-looking statements would be contained principally in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors.” Forward-looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities and the effects of regulation. Forward-looking statements include all statements that are not historical facts and can be identified by terms such as “anticipates,” “believes,” “could,” “estimates,” “expects,” “hopes,” “intends,” “may,” “plans,” “potential,” “predicts,” “projects,” “should,” “will,” “would” or similar expressions.

This report may contain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act, and we intend that such forward-looking statements be subject to the safe harbors created thereby. These forward-looking statements are based on our management’s beliefs and assumptions and on information currently available to our management. Any such forward-looking statements would be contained principally in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Risk Factors.” Forward-looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities and the effects of regulation. Forward-looking statements include all statements that are not historical facts and can be identified by terms such as “anticipates,” “believes,” “could,” “estimates,” “expects,” “hopes,” “intends,” “may,” “plans,” “potential,” “predicts,” “projects,” “should,” “will,” “would” or similar expressions.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. We discuss many of these risks in greater detail in “Risk Factors.” Given these uncertainties, you should not place undue reliance on these forward-looking statements. Also, forward-looking statements represent our management’s beliefs and assumptions only as of the date of this report. You should read this report and the documents that we reference in this report and have filed as exhibits to the report completely and with the understanding that our actual future results may be materially different from what we expect. Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

Additional information concerning these and other risks and uncertainties is contained in our filings with the Securities and Exchange Commission, including the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Unless otherwise indicated or the context otherwise requires, all references in this Form 10-Q to “we,” “us,” “our,” “our company,” “U. S. Stem Cell, Inc.” or the “Company” refer to U.S. Stem Cell, Inc. and its subsidiaries.

## Our Ability to Continue as a Going Concern

Our independent registered public accounting firm has issued its report dated April 16, 2018, in connection with the audit of our annual financial statements as of December 31, 2017, that included an explanatory paragraph describing the existence of conditions that raise substantial doubt about our ability to continue as a going concern and Note 2 to the unaudited financial statements for the period ended June 30, 2018 also describes the existence of conditions that raise substantial doubt about our ability to continue as a going concern.

## Overview

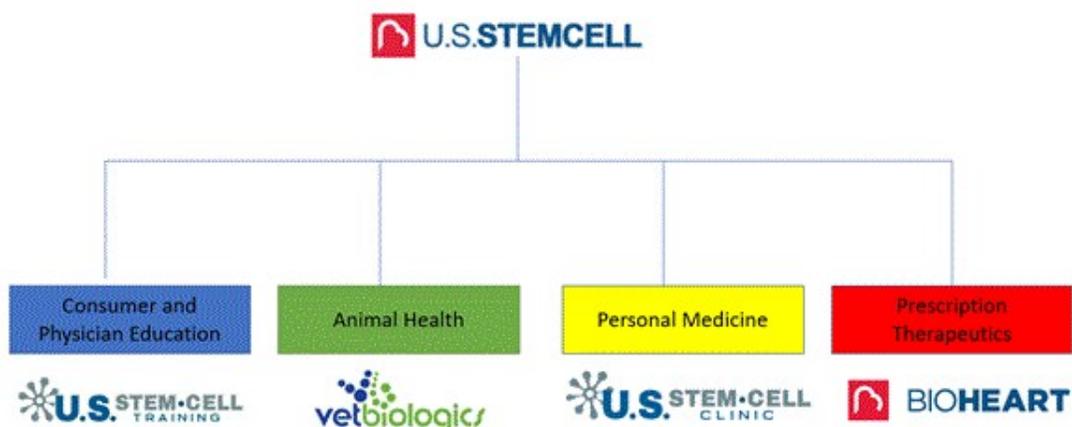

We are an enterprise in the regenerative medicine/cellular therapy industry. We are focused on the discovery, development, and commercialization of cell based therapeutics that prevent, treat or cure disease by repairing and replacing damaged or aged tissue, cells and organs, and restoring their normal function. Our business includes the development of proprietary cell therapy products as well as revenue generating physician and patient based regenerative medicine/cell therapy training services, revenues realized from an Asset Sale and Lease Agreement (See Note 6 of the Financial Statements and description below) related to the segment of our company business involving collecting, growing and banking cell cultures treatment kits for humans and animals, and the operation of a cell therapy clinic.

US Stem Cell Training, Inc. (“SCT”), an operating division of our company, is a content developer of regenerative medicine/cell therapy informational and training materials for physicians and patients. SCT also provides in-person and online training courses which are delivered through in-person presentations at SCT’s state of the art facilities and globally at university, hospital and physician’s office locations as well as through online webinars. Additionally, SCT provides hands-on clinical application training for physicians and health care professionals interested in providing regenerative medicine / cell therapy procedures.

Vet biologics, (“VBI”), an operating division of our company, is a veterinary regenerative medicine company committed to providing veterinarians with the ability to deliver the highest quality regenerative medicine therapies to dogs, cats and horses. VBI provides veterinarians with extensive regenerative medicine capabilities including the ability to isolate regenerative stem cells from a patient’s own adipose (fat) tissue directly on-site within their own clinic or stall-side.

US Stem Cell Clinic, LLC, (“SCC”), Regenerative Wellness Clinic, LLC, and US Stem Cell Clinic of the Villages, LLC are partially owned investment of our company (in which we have a 33%, 33% and 49% respectively member interest), are physician run regenerative medicine/cell therapy clinics providing cellular treatments for patients afflicted with neurological, autoimmune, orthopedic and degenerative diseases. They are operating in compliance with the FDA 1271s which allow for same day medical procedures to be considered the practice of medicine. We isolate stem cells from bone marrow and adipose tissue and also utilize platelet rich plasma.

Our comprehensive map of products and services:

## [Table of Contents](#)

All living complex organisms start as a single cell that replicates, differentiates (matures) and perpetuates in an adult organism through its lifetime. Cellular therapy is the process that uses cells to prevent, treat or cure disease, or regenerate damaged or aged tissue. To date, the most common type of cell therapy has been the replacement of mature, functioning cells such as through blood and platelet transfusions. Since the 1970s, first bone marrow and then blood and umbilical cord-derived stem cells have been used to restore bone marrow, as well as blood and immune system cells damaged by the chemotherapy and radiation that are used to treat many cancers. These types of cell therapies are standard of practice world-wide and are typically reimbursed by insurance.

Within the field of cell therapy, research and development using stem cells to treat a host of diseases and conditions has greatly expanded. Stem cells (in either embryonic or adult forms) are primitive and undifferentiated cells that have the unique ability to transform into or otherwise affect many different cells, such as white blood cells, nerve cells or heart muscle cells. Our cell therapy development efforts are focused on the use of adult stem cells; those cells which are found in the muscle, fat tissue and peripheral blood.

There are two general classes of cell therapies: Patient Specific Cell Therapies (“PSCTs”) and Off-the-Shelf Cell Therapies (“OSCTs”). In PSCTs, cells collected from a person (“donor”) are transplanted, with or without modification, to a patient (“recipient”). In cases where the donor and the recipient are the same individual, these procedures are referred to as “autologous”. In cases in which the donor and the recipient are not the same individual, these procedures are referred to as “allogeneic.” Autologous cells offer a low likelihood of rejection by the patient and we believe the long-term benefits of these PSCTs can best be achieved with an autologous product. In the case of OSCT, donor cells are expanded many fold in tissue culture, and large banks of cells are frozen in individual aliquots that may result in treatments for as many as 10,000 people from a single donor tissue. By definition, OSCTs are always allogeneic in nature.

Various adult stem cell therapies are in clinical development for an array of human diseases, including autoimmune, oncologic, neurologic and orthopedic, among other indications. While no assurances can be given regarding future medical developments, we believe that the field of cell therapy holds the promise to better the human experience and minimize or ameliorate the pain and suffering from many common diseases and/or from the process of aging.

According to the Scalar Market Research Stem Cell Therapy Analysis Global Revenue, Trends, Growth, Share, Size and Forecast to 2022, the stem cell therapy market is worth USD 11.99 billion in 2016 and is expected to reach USD 60.94 billion by 2022, growing at a CAGR of 31.1% from 2016 to 2022.

Specific to cellular therapy, we are focused on the discovery, development and commercialization of autologous cellular therapies for the treatment of chronic and acute heart damage as well as vascular and autoimmune diseases.

In our pipeline, we have multiple product candidates for the treatment of heart damage, including MyoCell and MyoCell SDF-1. MyoCell and MyoCell SDF-1 are autologous muscle-derived cellular therapies designed to populate regions of scar tissue within a patient’s heart with new living cells for the purpose of improving cardiac function in chronic heart failure patients.

MyoCell SDF-1 is intended to be an improvement to MyoCell. MyoCell SDF-1 is similar to MyoCell but the myoblast cells to be injected for use in MyoCell SDF-1 are modified prior to injection by an adenovirus vector or non-viral vector so that they will release extra quantities of the SDF-1 protein, which expresses angiogenic factors.

AdipoCell is a kit used to isolate a patient-derived cell therapy proposed for the treatment of a variety of degenerative diseases. We hope to demonstrate that these product candidates are safe and effective complements to existing therapies for a variety of diseases.

Our mission is to advance to market novel regenerative medicine and cellular therapy products that substantially benefit humankind. Our business strategy is, to the extent possible, finance our clinical development pipeline through revenue (cash in-flows) generated through the marketing and sales of unique educational and training services, animal health products and personalized cellular therapeutic treatments.

A fundamental shift in venture capital investment strategies where, management believes, financial sponsorship is now directed toward commercial or near commercial enterprises has required us to adapt our mission combining immediate revenue generating opportunities with longer-term development programs. Accordingly, we have developed a multifaceted portfolio of revenue generating products and services in our US Stem Cell Training, Vetbiologics, and US Stem Cell Clinic/Regenerative Wellness Clinic, operating divisions that will, if successful, financially support its clinical development programs. Our goal is to maximize shareholder value through the generation of short-term profits that increase cash in-flows and decrease the need for venture financings – a modern biotechnology company development strategy.

Today, our company is a combination of opportunistic business enterprises. What we are establishing is a foundation of value in the products and services we are and plan to sell from US Stem Cell Training, Vetbiologics, and US Stem Cell clinics. Our strategy is to expand the revenues generated from each of these operating divisions and to reinvest the profits we generate into our clinical development pipeline.

On November 9, 2016, we executed a Commercial Agency Agreement with High Rising Group Company (General Trading and Construction) and subsequently, on February 10, 2017, we authorized High Rising Group Company as an independent contractor and Licensee for our company for the territories of Kuwait and the Middle East (expressly excluding prohibited countries pursuant to the Patriot Act and The Iran Threat Reduction and Syria Human Rights Act of 2012). The intent of the agreement is for High Rising Group Company to establish clinics specializing in regenerative medicine, stem cell treatment and therapy, including stem cell bank, training, and all related stem cell machines and equipment. To date, the first clinic in Kuwait City has been completed but has not begun operations as High Rising Group has not yet been able to secure regulatory approvals to operate. With the ongoing construction of the The Sheikha Salwa Sabah Al-Ahmad Center for Stem Cell and Umbilical Cord, a public/private partnership with the government of Kuwait, (see <http://news.kuwaittimes.net/website/stem-cell-center-epitomizes-ppp> which is expressly not incorporated by reference to this filing), management hopes (but cannot guarantee) that private sector stem cell centers, as described above, will get regulatory approval.

On January 29th, 2015 we announced an update and diversification of our clinical development pipeline. Our cardiovascular and vascular product candidates have been streamlined, putting, we believe, our best opportunities at the forefront of our efforts. The MYOCELL and MYOCELL SDF-1 candidates will, in our opinion, advance forward in the treatment of chronic heart failure (CHF). We are in active prospective partnering discussion for the MYOCELL SDF-1 program. Partnering, we contend, will enhance our capabilities, reduce our development cost through cost sharing and potentially accelerate our time to approval and commercialization. We will apply our ADIPOCELL to a variety of indications. We believe that updating and diversifying our clinical development programs increases the probability of our success, brings operational and fiscal clarity to our company, and will ultimately enhance shareholder value.

On March 3, 2017, we entered into an asset sale and lease agreement (sale/leaseback transaction; “Asset Sale and Lease Agreement”), with GACP (General American Capital Partners) Stem Cell Bank LLC, a Florida limited liability company (“GACP”) whereby we sold certain lab, medical and other equipment relating to the cell banking business for \$400,000 and leased back the sold equipment over a three year term. The lease includes a base monthly rental payment of \$20,000, due the first day of each calendar month. In addition, we are required to pay 2.3%, 22.5% and 31.6% of revenues collected on deposits arising from cell banking business for years 1, 2 and 3, respectively. At the expiration of the lease, we are required to return all leased equipment and along with any maintenance records, logs, etc. in our possession to the lessor with no right of repurchase. In addition, GACP has contractually agreed to invest an additional Two and a half Million Dollars (\$2,500,000) to open ten (10) stem cell clinics in the United States within 3 years--with a penalty provision to our benefit for shortfalls if less than 6 clinics are opened within 24 months. As of June 30, 2018 (effective May 9, 2018), GACP has suspended their obligation to open additional clinics (tolling such obligation to a mutually agreeable date in the future) and has suspended the monthly aggregate number of stem cell kits set forth for purchase in a given month arising from such clinics. All other terms and conditions of the agreements between U.S. Stem Cell, Inc. and GACP remain in full force and effect.

American Stem Cell Centers of Excellence are clinics derived from the investment group behind the Asset Purchase and Leaseback Agreement. American Stem Cell Centers of Excellence provide comprehensive stem cell treatments using innovative technologies and the latest research with the intent that after treatment, the body's own healing potential naturally repairs and regenerates damaged tissue. With a new clinic in Miami, Florida and, as we intend, additional clinics opening soon around the country, management contends that American Stem Cell Centers of Excellence provides comprehensive stem cell treatments using the U.S. Stem Cell Inc. innovative technologies and the latest regenerative medicine research. U.S. Stem Cell's team of scientists have pioneered these in-clinic regenerative medicine protocols and, in our estimation, have helped thousands of patients through their partly-owned subsidiary U.S. Stem Cell Clinic. American Stem Cell Centers of Excellence would like to replicate this success and have partnered and, with the Board of Directors' approval and continued oversight that this will not diminish their responsibilities to our company, have retained the professional services of both Kristin Comella and Mike Tomas as CSO and CEO respectively to help with scientific and successful operational deployment of their clinics. The board of directors contends that the successful deployment of American stem cell centers of excellence will lead to the financial value and revenue growth of US Stem Cell, Inc through sales of our products and services at American Stem Cell Center of Excellence clinics. Subsequently, the CSO of U.S. Stem Cell, Inc. has vacated her position but retained her positions with U.S. Stem Cell, Inc. and subsidiaries.

We will continue to evaluate and act upon opportunities to increase our top line revenue position and that correspondingly increase cash in-flows. These opportunities include but are not limited to the development and marketing of new products and services, mergers and acquisitions, joint ventures, licensing deals and more.

Further, if the opportunity presents itself whereby we can raise additional capital at a reasonable fair market value, our management will do so. Accordingly, we plan to continue in our efforts to restructure, equitize or eliminate legacy balance sheet issues that are obstacles to market capitalization appreciation and capital fund raising.

### **Results of Operations Overview**

We are a research and development company and our MyoCell product candidate has not received regulatory approval or generated any material revenues and is not expected generate revenues until commercialization , if ever. We have generated substantial net losses and negative cash flow from operations since inception and anticipate incurring significant net losses and negative cash flows from operations for the foreseeable future as we continue clinical trials, undertake new clinical trials, apply for regulatory approvals, make capital expenditures, add information systems and personnel, make payments pursuant to our license agreements upon our achievement of certain milestones, continue development of additional product candidates using our technology, establish sales and marketing capabilities and incur the additional cost of operating as a public company.

### **Three Months Ended June 30, 2018 as compared to the Three Months Ended June 30, 2017**

#### ***Revenues***

We recognized revenues of \$1,820,429 for the three months ended June 30, 2018. These revenues were generated from the sales of kits and equipment, services, MyoCath Catheters, AdipoCell, and laboratory services. We recognized revenues of \$1,385,911 for the three months ended June 30, 2017 from the sale of MyoCath catheters, AdipoCell, physician training, patient studies and laboratory services. The differential in revenue reflected an increase based on the products and services provided.

#### ***Cost of Sales***

Cost of sales consists of the costs associated with the production of MyoCath, laboratory supplies necessary for laboratory services, production of AdipoCell systems and materials, physician course materials, kits and clinic supplies required for patient studies.

Cost of sales were \$567,195 and \$452,290 in in the three month periods ended June 30, 2018 and 2017, respectively. Associated gross margins were \$1,253,234 (68.84%) and \$933,621 (67.37%) for the three months periods ended June 30, 2018 and 2017, respectively.

### ***Research and Development***

Our research and development expenses consist of costs incurred in identifying, developing, and testing, our products and services. Research and development expenses were \$2,591 in the three month period ended June 30, 2018, a decrease of \$4,817 from the research and development expenses of \$7,408 in the three month period ended June 30, 2017. Current management focus is towards on sales in addition to research and development and its corresponding ongoing costs. The timing and amount of our planned research and development expenditures is dependent on our ability to obtain additional financing.

### ***Marketing, General and Administrative***

Our marketing, general and administrative costs were \$2,073,957 for the three month period ended June 30, 2018 compared to \$782,256 for the three month period ended June 30, 2017, an increase of \$1,291,701. The increase in costs are primarily due to increases in consulting and other professional fees, increase in sales and marketing expenses and stock based and other compensation, as compared to the prior year.

Our marketing, general and administrative expenses primarily consist of the costs associated with our general management and product and service marketing programs, including, but not limited to, salaries and related expenses for executive, administrative and marketing personnel, rent, insurance, legal and accounting fees, consulting fees, travel and entertainment expenses, conference costs and other clinical marketing and trade program expenses.

### ***Loss on settlement of debt***

During the three months ended June 30, 2018, we incurred a net loss of \$20,128 primarily related to accounts payable and debt restructured during the current period as compared to a net aggregate loss of \$257,335 for the same period last year.

### ***Gain on sale of equipment***

In March 2017, we entered a sale/leaseback transaction whereby we sold our lab and other medical equipment and re-leased the equipment back for 36 months. In connection with the sale/leaseback, we realized a gain on sale of equipment of \$386,536, which we will recognize to operations over the term of the lease (36 months). During the three months ended June 30, 2018 and 2017, we recognized \$32,212 and \$32,211 in current period operations.

### ***Income from equity investment***

Our investment of a 33% member interest ownership of U.S. Stem Cell Clinic, LLC and Regenerative Wellness Clinic as well as a 49% interest in U.S Stem Cell of the Villages LLC are accounted for using the equity method of accounting. As such, we report our pro rata share of its income or loss for the period. For the three months ended June 30, 2018 and 2017, our pro rata share of its income was \$7,764 and \$79,642, respectively

### ***Interest Expense***

Interest expenses during the three months ended June 30, 2018 were \$441,068 compared to \$421,426 for the three months ended June 30, 2017. Interest expenses primarily consists of interest incurred on the principal amount of the Northstar loan, our former Bank of America loan, the Seaside National Bank loan, accrued fees and interest payable to the Guarantors, our capital lease and the amortization of debt discounts and non-cash interest incurred relating to our issued convertible notes payable. The debt discounts amortization and non-cash interest incurred during the three months ended June 30, 2018 and 2017 was \$62,045 and \$186,942, respectively.

**Six Months Ended June 30, 2018 as compared to the Six Months Ended June 30, 2017**

***Revenues***

We recognized revenues of \$3,533,358 for the six months ended June 30, 2018. These revenues were generated from the sales of kits and equipment, services, MyoCath Catheters, AdipoCell, and laboratory services. We recognized revenues of \$2,540,897 for the six months ended June 30, 2017 from the sale of MyoCath catheters, AdipoCell, physician training, patient studies and laboratory services. The differential in revenue reflected an increase based on the products and services provided.

***Cost of Sales***

Cost of sales consists of the costs associated with the production of MyoCath, laboratory supplies necessary for laboratory services, production of AdipoCell systems and materials, physician course materials, kits and clinic supplies required for patient studies.

Cost of sales were \$1,071,033 and \$814,063 in in the six month periods ended June 30, 2018 and 2017, respectively. Associated gross margins were \$2,462,325 (69.69%) and \$1,726,834 (67.96%) for the six months periods ended June 30, 2018 and 2017, respectively.

***Research and Development***

Our research and development expenses consist of costs incurred in identifying, developing, and testing, our products and services. Research and development expenses were \$3,928 in the six month period ended June 30, 2018, a decrease of \$4,561 from the research and development expenses of \$8,489 in the six month period ended June 30, 2017. Current management focus is towards on sales in addition to research and development and its corresponding ongoing costs. The timing and amount of our planned research and development expenditures is dependent on our ability to obtain additional financing.

***Marketing, General and Administrative***

Our marketing, general and administrative costs were \$3,290,483 for the six month period ended June 30, 2018 compared to \$1,614,719 for the six month period ended June 30, 2017, an increase of \$1,675,764. The increase in costs are primarily due to increases in consulting and other professional fees, increase in sales and marketing expenses and stock based and other compensation, as compared to the prior year.

Our marketing, general and administrative expenses primarily consist of the costs associated with our general management and product and service marketing programs, including, but not limited to, salaries and related expenses for executive, administrative and marketing personnel, rent, insurance, legal and accounting fees, consulting fees, travel and entertainment expenses, conference costs and other clinical marketing and trade program expenses.

***Loss on settlement of debt***

During the six months ended June 30, 2018, we incurred a net loss of \$35,187 primarily related to accounts payable and debt restructured during the current period as compared to a net aggregate loss of \$382,860 for the same period last year.

***Gain on sale of equipment***

In March 2017, we entered a sale/leaseback transaction whereby we sold our lab and other medical equipment and re-leased the equipment back for 36 months. In connection with the sale/leaseback, we realized a gain on sale of equipment of \$386,536, which we will recognize to operations over the term of the lease (36 months). During the six months ended June 30, 2018 and 2017, we recognized \$64,423 and \$42,948 in current period operations.

### ***Loss on change in fair value of derivative liabilities***

During 2016, we issued convertible promissory notes with an embedded derivative, requiring us to fair value the derivatives each reporting period and mark to market as a non-cash adjustment to our current period operations. This resulted in a loss of \$1,891,205 on change in fair value of derivative liabilities for the six months ended June 30, 2017, none arising from the current period.

### ***Income from equity investment***

Our investment of a 33% member interest ownership of U.S. Stem Cell Clinic, LLC and Regenerative Wellness Clinic as well as a 49% interest in U.S Stem Cell of the Villages LLC are accounted for using the equity method of accounting. As such, we report our pro rata share of its income or loss for the period. For the six months ended June 30, 2018 and 2017, our pro rata share of its income was \$103,106 and \$139,009, respectively

### ***Interest Expense***

Interest expenses during the six months ended June 30, 2018 were \$683,425 compared to \$588,159 for the six months ended June 30, 2017. Interest expenses primarily consists of interest incurred on the principal amount of the Northstar loan, our former Bank of America loan, the Seaside National Bank loan, accrued fees and interest payable to the Guarantors, our capital lease and the amortization of debt discounts and non-cash interest incurred relating to our issued convertible notes payable. The debt discounts amortization and non-cash interest incurred during the six months ended June 30, 2018 and 2017 was \$132,019 and \$260,085, respectively.

### ***Stock-Based Compensation***

Stock-based compensation reflects our recognition as an expense of the value of stock options and other equity instruments issued to our employees and non-employees over the vesting period of the options and other equity instruments. We have granted to our employees options to purchase shares of common stock at exercise prices equal to the fair market value of the underlying shares of common stock at the time of each grant, as determined by our Board of Directors, with input from management.

We follow Accounting Standards Codification subtopic 718-10. Compensation (“ASC 718-10”) which requires that all share-based payments to both employee and non-employees be recognized in the income statement based on their fair values.

In awarding our common stock, our Board of Directors considered a number of factors, including, but not limited to:

- our financial position and historical financial performance;
- our length sales of our common stock;
- the development status of our product candidates;
- the business risks we face;
- vesting restrictions imposed upon the equity awards; and
- an evaluation and benchmark of our competitors; and
- prospects of a liquidity event.

On April 1, 2013, the Board of Directors approved, subject to subsequently received shareholder approval, the establishment of the Bioheart 2013 Omnibus Equity Compensation Plan, or the “2013 Omnibus Plan”. The 2013 Omnibus Plan initially reserved up to fifty thousand (50,000) shares of common stock for issuance. On August 4, 2014, the Board of Directors approved to set the reserve to one hundred thousand (100,000) shares of common stock for issuance and to close the 1999 Officers and Employees Stock Option Plan. On February 2, 2015, at the annual meeting of shareholders, the majority of shareholders approved the 2013 Omnibus Equity Compensation Plan. On November 2, 2015, the Board of Directors approved the increase of the reserve under the 2013 Omnibus Plan to five hundred million (500,000,000) shares of common stock for issuance, effective September 16, 2016, approved an addition of twenty five million (25,000,000) shares of common stock to the reserve, effective April 21, 2017, approved an addition of twenty five million (25,000,000) shares of common stock to the reserve, effective August 7, 2017, approved an addition of thirty million (30,000,000) shares of common stock to the reserve and effective May 7, 2018, approved an addition of one hundred million (100,000,000) shares of common stock to reserve.

### ***Critical Accounting Policies***

Our discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. While our critical accounting policies are described in Note 1 to our financial statements appearing elsewhere in this report, we believe the following policies are important to understanding and evaluating our reported financial results:

#### ***Revenue Recognition***

Effective January 1, 2018, the Company recognizes revenue in accordance with Accounting Standards Codification 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. The updated guidance states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also provides for additional disclosures with respect to revenues and cash flows arising from contracts with customers. The standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2017, and the Company adopted the standard using the modified retrospective approach effective January 1, 2018.

At the time of each transaction, management assesses whether the fee associated with the transaction is fixed or determinable and whether or not collection is reasonably assured. The assessment of whether the fee is fixed or determinable is based upon the payment terms of the transaction. Collectability is assessed based on a number of factors, including past transaction history with the client and the creditworthiness of the client.

The Company's primary sources of revenue are from the sale of test kits and equipment, training services, patient treatments, laboratory services and cell banking.

Revenues for kits and equipment sold are not recorded until kits and equipment are received by the customer. Revenues from in-person trainings are recognized when the training occurs and revenues from on demand online trainings are recognized when the customer purchases the rights to the training course. Any cash received as a deposit for trainings are recorded by the Company as a liability.

Patient treatments and laboratory services revenue are recognized when those services have been completed or satisfied.

Revenues for cell banking sales are accounted for as multiple performance obligations as described in ASC 606 and addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets. Because the Company sells its services separately, on more than a limited basis and at a price within a narrow range, the Company was able to allocate revenue based on stand-alone pricing. The multiple performance obligations include stem cell banking, dose retrieval and yearly storage fees. Revenues for stem cell banking and dose retrieval is recognized at the point of service and revenues for the yearly storage fees is recognized over the term of the banking contract, which is typically one year with annual renewals.

#### ***Research and Development Activities***

We account for research and development costs in accordance with Accounting Standards Codification subtopic 730-10, Research and Development ("ASC 730-10"). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and development costs are expensed when the contracted work has been performed or as milestone results have been achieved as defined under the applicable agreement. Our company-sponsored research and development costs related to both present and future products are expensed in the period incurred.

## **Inflation**

Our opinion is that inflation has not had, and is not expected to have, a material effect on our operations.

## **Climate Change**

Our opinion is that neither climate change, nor governmental regulations related to climate change, have had, or are expected to have, any material effect on our operations.

## **Concentrations of Credit Risk**

As of June 30, 2018, three customers represented 35%, 25% and 11%, respectively, representing an aggregate of 71% of the Company's accounts receivable. As of December 31, 2017, three customers represented 27%, 15% and 13% respectively, representing an aggregate of 55% of the Company's accounts receivable.

For the three months ended June 30, 2018, the Company's revenues earned from sale of products and services were \$1,820,429, of which three customers represented 10%, 8% and 6%, one of which is a related party (US Stem Cell Clinic LLC, a partly owned investment in with the Company holds a 33% interest) represented 10% of Company's revenue. For the three months ended June 30, 2017, the Company's revenues earned from the sale of products and services were \$1,385,911, of which three customers represented 6%, 10% and 14%, one of which is a related party (US Stem Cell Clinic LLC) represented 6% of Company's revenue.

For the six months ended June 30, 2018, the Company's revenues earned from sale of products and services were \$3,533,358, of which two customers represented 10% and 7% of Company's revenue, one of which is a related party (US Stem Cell Clinic LLC, a partly owned investment in with the Company holds a 33% interest) represented 10%. For the six months ended June 30, 2017, the Company's revenues earned from the sale of products and services were \$2,540,897, of which three customers represented 5%, 11% and 11% of Company's revenue, one of which is a related party (US Stem Cell Clinic LLC), represented 11% of the Company's revenues.

## **Recent Accounting Policies**

There are various other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on our financial position, results of operations or cash flows.

## **Liquidity and Capital Resources**

In the six months ended June 30, 2018, we achieved positive cash flow from operations of \$668,218 but will continue to finance our considerable operational cash needs with cash generated from financing activities.

### *Operating Activities*

Net cash provided by operating activities was \$668,218 in the six month period ended June 30, 2018 as compared to \$785,686 of cash provided in the six months ended June 30, 2017.

Our cash provided by for operations in the six months ended June 30, 2018 reflected a net loss generated during the period of \$1,383,693, adjusted for non-cash items such as stock-based compensation of \$619,155, notes payable issued for officer compensation of \$800,000, depreciation of \$103,828, amortization of debt discounts and non-cash interest of \$132,019, loss on settlement of debt of \$35,187, net with bad debt recoveries of \$5,291, gain on sale of property and equipment of \$64,423 and income from investments of \$103,106. In addition we had a net increase in operating assets of \$29,861 and an increase in accrued expenses of \$161,492, accounts payable of \$204,510 and in deferred revenue of \$198,401.

[Table of Contents](#)

*Investing Activities*

Net cash provided by investing activities was \$109,000 for the six months ended June 30, 2018 represented proceeds from our equity investment of \$109,000 as compared to cash provided by investing activities of \$640,000 from our equity investments of \$140,000, \$400,000 from sale of property and equipment and proceeds from long term deposits of \$100,000 for the same period last year.

*Financing Activities*

Net cash used in financing activities was an aggregate of \$94,402 in the six month period ended June 30, 2018 as compared to cash used of \$766,716 in the six month period ended in June 30, 2017. In the six month period ended June 30, 2018, we received \$367,700 from the sale of shares of our common stock, proceeds from restructuring of financing agreements of \$126,402, advances from related party of \$100,000 and equity contribution of \$103,159, net with repayments of notes payable of \$322,524 and \$469,139 related party notes.

***Existing Capital Resources and Future Capital Requirements***

Our MyoCell product candidate has not received regulatory approval or generated any material revenues. We do not expect to generate any material revenues or cash from sales of our MyoCell product candidate until commercialization of MyoCell, if ever. We have generated substantial net losses and negative cash flow from operations since inception and anticipate incurring significant net losses and negative cash flows from operations for the foreseeable future. Historically, we have relied on proceeds from the sale of our common stock and our incurrence of debt to provide the funds necessary to conduct our research and development activities and to meet our other cash needs.

At June 30, 2018, we had cash and cash equivalents totaling \$1,669,615. However our working capital deficit as of such date was approximately \$5.4 million. Our independent registered public accounting firm has issued its report dated April 16, 2018 in connection with the audit of our financial statements as of December 31, 2017 that included an explanatory paragraph describing the existence of conditions that raise substantial doubt about our ability to continue as a going concern and Note 2 of our unaudited financial statement for the quarter ended June 30, 2018 addresses the issue of our ability to continue as a going concern.

**Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Not required under Regulation S-K for “smaller reporting companies.”

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

As required under Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Accounting Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2018. Based upon that evaluation, the Chief Executive Officer and Chief Accounting Officer concluded that our disclosure controls and procedures as of June 30, 2018 were not effective, for the same reasons as previously disclosed under Item 9A. “Controls and Procedures” in our Annual Report on Form 10-K for our fiscal year ended December 31, 2017.

**Changes in Internal Controls over Financial Reporting**

There have been no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) and 15d-(f) of the Exchange Act) that occurred during the our last fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II — OTHER INFORMATION**

### **Item 1. Legal Proceedings**

On December 12, 2017, a product liability lawsuit was filed in Broward County, specifically Jeannine Mallard v. U.S. Stem Cell, Inc., US Stem Cell Clinics LLC., Regenestem, LLC., Regenestem Network, LLC., and Kristin C. Comella. An amended complaint was filed on June 28, 2018, and also sued Pavillion Foods, Inc, dba Palm Supply and Pavillion Scientific, Inc. The Company will continue to defend this claim vigorously.

On September 17, 2015, a product liability lawsuit was filed in Broward County, specifically Patsy Bade v. Bioheart, Inc. US Stem Cell Clinics LLC, Aleiandro Perez, ARNP, and Shareen Greenbaum, M.D., and on November 30, 2015, a product liability lawsuit was filed in Broward County, specifically Elizabeth Noble v. Bioheart, Inc. US Stem Cell Clinics LLC, Aleiandro Perez, ARNP, and Shareen Greenbaum, M.D. During the year ended December 31, 2016, both matters settled by the Company’s insurance policy with no additional cost to the Company, excluding the Company payment of the \$100,000 insurance company deductible of which \$11,000 was paid in fiscal 2017. As a result of the final settlement and determination of insurance coverage, the Company recognized \$100,000 of expense due to litigation for the year ended December 31, 2017, of which \$89,000 is included in accrued expenses at June 30, 2018 and December 31, 2017.

On May 9, 2018, the U.S. Department of Justice filed an injunctive action, specifically United States of America v. U.S. Stem Clinic, LLC, U.S. Stem Cell, Inc., Kristin C. Comella, and Theodore Gradel. The Complaint was filed at the request of the U.S. Food and Drug Administration (FDA) and alleges that the respective defendants manufacture “stromal vascular fraction” (SVF) products from patient adipose (fat) tissue, which the companies then market as stem cell-based treatments without first obtaining necessary FDA approvals. The Company has retained counsel to defend in this action and continues discussions with the U.S. Department of Justice to achieve a favorable settlement. The Company is not able to predict the duration, scope, results, or consequences of the U.S. Department of Justice discussion or the injunctive actions. There can be no assurance that this matter will be resolved in a manner that is not adverse to the Company.

On or about March 1, 2018, the U.S. Securities and Exchange Commission (“Commission”), Miami Regional Office (“Commission Staff”), served a subpoena upon U.S. Stem Cell, Inc., which seeks the production of certain documents and communications. The Commission Staff is conducting a formal non-public, fact-finding inquiry of U.S. Stem Cell, Inc (“Investigation”). The Investigation is neither an allegation of wrongdoing nor a finding that any violation of law has occurred. The Company is cooperating with, and has provided information and documents to, the Commission Staff. As part of the Investigation, on or about May 14, 2018, the Commission Staff served subpoenas upon Kristin Comella and Mike Tomas, respectively, seeking the production of certain documents and communications. Ms. Comella and Mr. Tomas responded to the respective subpoenas and provided information and documents to the Commission Staff. At this juncture, the Company is not able to predict the duration, scope, results, or consequences of the Commission Staff’s investigation. There can be no assurance that the Investigation will be resolved in a manner that is not adverse to the Company.

The Company is subject at times to other legal proceedings and claims, which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters should not have a material adverse effect on its financial position, results of operations or liquidity. There was no outstanding litigation as of June 30, 2018 other than described above.

### **Item 1A. Risk Factors**

Not required under Regulation S-K for “smaller reporting companies.”

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None

**Item 3. Defaults Upon Senior Securities**

There were no defaults upon senior securities during the period ended June 30, 2018

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

None

**Item 6. Exhibits**

AMENDMENT TO ASSET SALE AND LEASE AGREEMENT

This AMENDMENT TO ASSET SALE AND LEASE AGREEMENT (this "Amendment") is signed this 18 day of June 2018 but is effective as of the 9th day of May 2018 (the "Effective Date"), by and between GACP STEM CELL BANK LLC, a Florida limited liability company ("Lessor"), and U.S. STEM CELL, INC., a Florida corporation ("Lessee"). Lessor and Lessee are sometimes referred to herein individually as a "Party," and collectively as the "Parties."

RECITALS

WHEREAS, Lessor and Lessee on March 3, 2017, entered into that certain Asset Sale and Lease Agreement (the "Agreement"), a copy of which is attached hereto as Exhibit A; and

WHEREAS, pursuant to the Agreement, the Parties, among other matters established an ongoing business and operational relationship with respect to the establishment and operation of stem cell treatment clinics (the "Business Relationship"); and

WHEREAS, in accordance with the Agreement, the Parties are required to and have been conducting the Business Relationship in accordance with all applicable federal, state and local laws, regulations and rules ("Applicable Laws"); and

WHEREAS, May 9, 2018, certain actions of the United States Department of Justice have occurred and may continue to occur (collectively, "DOJ Actions") which may affect aspects of the performance by Lessor and Lessee of the Business Relationship pursuant to the Agreement; and

WHEREAS, Lessor and Lessee therefore desire to take into account the actual and potential effect of DOJ Actions upon their performance of the Agreement and to modify accordingly certain provisions of the Agreement.

AGREEMENT

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. The above Recitals are true and correct and are incorporated herein by reference.
  2. Section 12.01 of the Agreement is hereby amended by inserting immediately after the end of the last sentence of the original text of the Section the following provisions: "Notwithstanding the foregoing provisions of this Section 12.01 or any other provision of this Agreement to the contrary, Lessor and Lessee agree to suspend as of May 9, 2018, Lessor's obligation hereunder to open six (6) stem cell clinics within the first two (2) years following the Closing Date, and such two (2) year period shall cease to run and shall be deemed tolled until such mutually satisfactory date as Lessor and Lessee may in future agree in a signed writing, whereupon such period shall resume running for such time as remained for it to run as of the
-

Effective Date. In addition, for so long as such obligation of Lessor to open stem cell clinics remains suspended, so too shall be suspended the monthly aggregate number of stem cell kits set forth for purchase in a given month in the financial model for six (6) clinics attached to the Agreement as **Exhibit C**”

3. Each of the Parties hereby affirms, agrees and covenants that, in continuing to perform the remainder of the Agreement and the Business Relationship not hereby suspended, it shall in good faith use its best efforts to comply with all Applicable Laws.

4. No other changes, modifications, or additions to the Agreement are made hereby and except as amended hereunder, the Parties agree and acknowledge that the Agreement is ratified, approved and confirmed and is in full force and effect.

5. All capitalized terms not otherwise defined in this Amendment shall have the meanings given in the Agreement.

IN WITNESS WHEREOF, the parties to this Amendment have caused this Amendment to be executed by their duly authorized respective officers as of the date first written above, but effective as of the Effective Date

I, Mike Tomas, certify that:

1. I have reviewed this report on Form 10-Q of U.S Stem Cell, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
